GOURMET'S CHOICE

Appetiser

Vegan's Choice

The Main

Verde

Minato

Italiano

Temptation

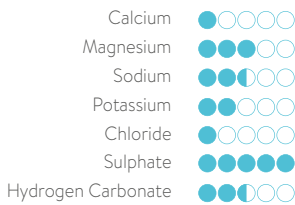

Sweet 'n' Salty

APPETISER

We recommend the sulphate-rich water as an aperitif and appetiser. It awakens your taste buds and gently stimulates the stomach. Best enjoyed slightly carbonated.

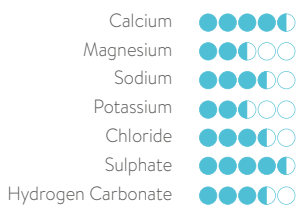

CHARACTER

VEGANS CHOICE

Focused on the plant based diet. The distinctive taste combining calcium, magnesium and chloride creates the perfect match.

CHARACTER

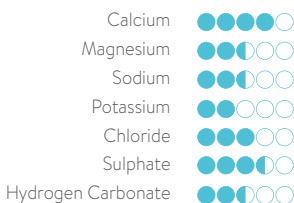

THE MAIN

Goes perfectly with hearty meat dishes. We recommend it from medium to full carbonation if enjoyed as main drink, or still if paired with a full-bodied red wine.

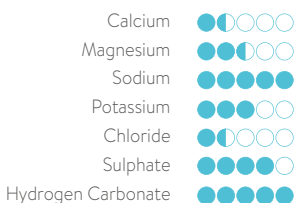

CHARACTER

VERDE

The magnesium and calcium content in Verde supports your daily vitamin and mineral intake from fruit and vegetables. The sodium-rich water goes very well with vegetarian and vegan dishes.

CHARACTER

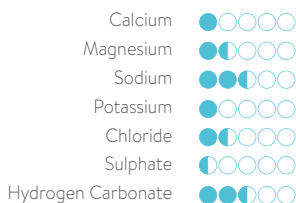

MINATO

Minato, ‘water’ in Japanese, is the perfect recipe to go with sushi or any of your seafood dishes. We recommend this soft harmonious water to be served still or medium carbonated.

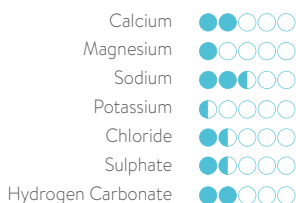

CHARACTER

ITALIANO

Ideal for the preparation of pasta. We recommend “Italiano” as the ideal pasta water. A medium content of water hardness increases the variety of flavors and thus enhances the spirit of even simple pasta dishes.

CHARACTER

TEMPTATION

The light, tangy aftertaste of Temptation is the perfect contrast to a sweet dessert. The soft, smooth low-sodium mineral water rounds off the sweetness of desserts without leaving behind a strong taste.

Sweet Dreams

HARMONY

The still to slightly carbonated Harmony has a balanced mineralisation with an ample sulphate content. It harmonises well with more acidic drinks and discreetly underlines their flavours.

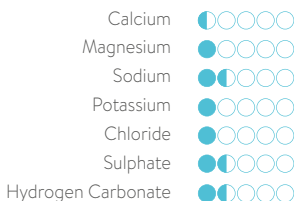

CHARACTER

CRYSTAL CLEAR

Crystal Clear offers a balanced interaction of sodium, magnesium and calcium accomplishing the effect of being the perfect accompaniment. The carbonation refreshes the gums and directs attention towards the delicate nuances of your dining experience.

CHARACTER

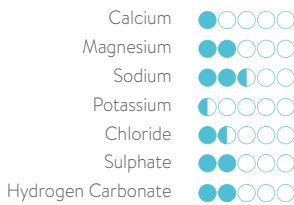

THE GOURMET

The Gourmet is our recommendation for a balanced water, which impresses with its neutral taste. Enjoy still or slightly carbonated depending on your individual taste preferences.

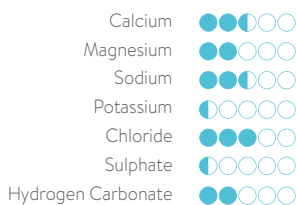

CHARACTER

PERFECT BALANCE

The sodium content of this water provides the perfect balance. With its slightly sparkling nature, it stimulates the palate and levels the intensity of your taste sensations.

CHARACTER

SWEET DREAMS

Take Sweet Dreams water to bed with you. A gentle mineralisation and its low sodium content will help you nod off to a peaceful and refreshing sleep.

OUR MISSION

LUQEL was founded by visionary and inventor Josef Schucker in a response to seeing all the plastic waste in our oceans. Our goal is to help remove at least 5 billion single-use plastic bottles per annum, from the world, by 2026, by encouraging people to move away from purchasing single-use plastic bottles of water.

JOSEF SCHUCKER,
Founder, inventor and visionary of LUQEL.

WHY IS AQUA WATER BAR BY LUQEL DIFFERENT

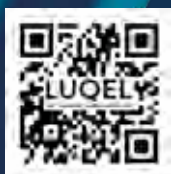

At AQUA Water Bar by LUQEL we purify tap water using reverse osmosis, removing all impurities, including nano-plastics, medical residues, and pathogens. Most other filtration and water dispensing systems only filter to the active carbon stage, which means bacteria, heavy metals, nitrates, medical residues and pathogens can still make it through into the drinking water.

The purified LUQEL water is remineralised with a patented dosing system to create our sommelier created gourmet selection of up to thirty different mineralised waters that are fully customisable with regard to temperature between 4 and 95°C and different carbonation levels.

The LUQEL Water Station is engineered and manufactured in Germany and is the proud winner of many design and innovation awards.
